Coffee

Young Negro Man Found Dead Sunday

Willie Dixon, a young black man, 24, was found dead last Sunday morning about 8:00 a.m. He was found in his house by his uncle, Ernest Eason. The house is located in Maberry Heights, Yergerblood was last seen on Tuesday night of last week. He had been dead for several days when he was found.

Investigating the death were the Elba police, Deputy Sheriff Neil Grantham, Coroner Charles Hayes, III, District Attorney Leevey Stephens and state toxicologist.

District Attorney Stephen told this newspaper Monday that there was no evidence of foul play. We won't have all the autopsy reports for several weeks but at this point we have no reason to believe it was (young-blood's) death was from anything but natural causes."

This picture was taken on Johnson Street looking west toward Brantley Highway. The street is closed to the point of the blockade but not from this point on to the Brantley Highway where it comes out between the city cemetery and the home of Mrs. Spencer Ziegler,

plaints about the closing of the road and at their Tuesday night meeting invited Mr. Wade Mallory to their meeting to discuss the action taken on the placing of the blockade.

Mallory told the council he owned the property and the area and stated he had a deed to strip it off and

400 feet long along the cemetery. Mallory said the council had been asked to meet on the day after Christmas and that "I am not going to be stubborn or unwilling to do what is my duty but I feel it is my property and have the right to do with it as I please,"

Mayor Brunson stated that the city attorney had advised him that the potential hazards removed from the middle of the road before someone was hurt and sued both Mallory and Easom and that he would have it as a continuing member,"

Mallory's final statement after discussing it for two hours with the council was "The property is mine, I have a deed I don't want to give up on it until it is settled, if they do then are trespassing. I think this makes my position clear."

The meeting was set at five p.m., Wednesday with Mayor Brunson, Mallory and Mrs. Ziegler, whom Mallory stated had a say in the matter, in part of the property involved belonged to her. The council instructed the mayor to take whatever legal steps necessary to get the road opened if the Wednesday meeting failed to resolve the difference.

Wednesday evening at 6:00, under the leadership of Mr. Bob Franklin, Director of Instruction, Devereaux, a group of Judson students will present a program in the Social Hall.

Judson, an agency of the Alabama State Convention, is Alabama's only women's college. Young women interested in Judson are cordially invited to attend these services and meet these representatives.

Judge Fred Good Carney of Elba, President of the Board of Trustees and Jim Auchmuty, pastor of the First Baptist Church of Elba, also serves on the board. Mrs. Anna Brunson and Kay Stephens are students from this area now attending Judson.

GEORGE PATTY RETIRES

The Elba City Council

authorized Mayor Brunson

to issue a resolution to George Patty in appreciation

for his 31 years of faithful service to the City of Elba.

COURT ORDERS REDISTRICTING

The legislative redistricting of the state of Alabama was done by the three judge Federal panel and the results announced on Monday.

As a result of the redistricting, Elba Enterprise and Opp will be in the same House of Representatives district (District 74), Enterprise and a portion of the northern portion of Coffee County will be in a district with Pike County.

Enterprise and Opp will be in a Senatorial District with Geneva and Covington Counties and also a small portion of Etowah County. None of these new states will go into effect until the 1974 elections.

Representative State Representative Douglas Easters represents all of Coffee County, Representative Frank Jackson lives in Opp and in 1974 he and his friend Douglas Easters will have to lock horns if both desire to seek re-election.

Robert D. Johnson, Student Government Association president at Enterprise State Junior College was invited to speak to George C. Wallace to represent the junior college as a member of the Governor's Advisory Board last week.

Johnson, a sophomore from Elba and the son of Mr. and Mrs. Jack Prescott, said that the Board will meet sometime during a year with Governor Wallace to advise him on college matters from the student's point of view.

Johnson recommended by representatives of Student Government Associations from colleges and universities from Alabama will meet with the governor last fall.

Governor Wallace stated in his appointment letter, "... I take great pride in appointing you to represent your tenure of service will be fruitful for Enterprise State Junior College and to our state."

BASKETBALL IS IN SPOTLIGHT HERE SOON

January 24 has been designated "Fill the Gym Night" at Elba High School. This is the night the Elba Tiger Basketball team plays the New Brockton Basketball team. Also on this evening is a "Free Throw" contest with trophies going to the top three in two categories - over 30' and under 30'.

The public is invited to participate in this event.

COUNTY CATTLEMEN TO MEET NEXT WEEK

The annual meeting of the Coffee County Cattlemen's Association will be held on Thursday night, January 12.

The meeting will be held at the Enterprise High School as it has been in the past.

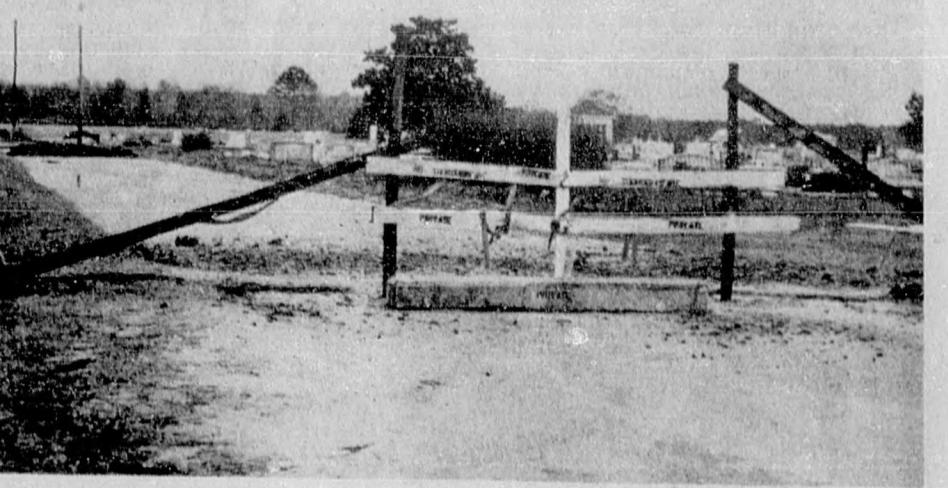

A national known speaker has been selected to bring the address.

All cattlemen have been encouraged by the association to attend this meeting and hear this interesting speaker. (Editor's note: more details next week.)

POLICEMAN MAX RAYBURN of the Elba Police Department investigates an accident at the Junior Food Store. A late model car jumped the curb and crashed through a plate glass window. No one was hurt in the incident according to Officer Rayburn. The accident happened on New Year's Eve at the North Claxton location of the food store.

POOR ORIGINAL

Mallory Closes Portion Of Street

Judson President To Speak

Sunday is Judson College Day at the First Baptist Church of Elba. Dr. N. H. McCrummen, President of Judson, will be the featured speaker for the morning service.

Miss Brenda Honeycutt, soprano and member of the Judson faculty, will present a concert of sacred music on Sunday evening at 7:00. Under the leadership of Mr. Bob Franklin, Director of Instruction, Devereaux, a group of Judson students will present a program in the Social Hall.

The meeting was set at five p.m., Wednesday with Mayor Brunson, Mallory and Mrs. Ziegler, whom Mallory stated had a say in the matter, in part of the property involved belonged to her. The council instructed the mayor to take whatever legal steps necessary to get the road opened if the Wednesday meeting failed to resolve the difference.

Mac Arthur To Dedicate New Textile Unit

MacArthur State Technical Institute has announced the dedication of its Textile Technology Training Facility for Wednesday, January 12, 1972.

The new training facility in the state and is designed to train high school students in the textile field. At present the school is training high school students from Opp, Kinloch, and Geneva High Schools for two periods per day.

The students are giving high school credit for earning credit toward a diploma from MacArthur Tech. Dedication ceremonies will be held in the school cafeteria at 9:00 a.m. Addresses will be made by Mr. T. L. Faulkner, Director of Vocational Education, and Dr. Leroy Brown, State Superintendent of Education. This training facility will be dedicated by Lt. Governor Jerry Beasley, County and City Government and School official from the area served by MacArthur Tech, been invited. Textile Manufacturers from over the southeastern United States will be present for the occasion.

The action came after Alabama had gone 12 months on December 31 without a single case of hog cholera. Since the disease was first discovered in the state, Commissioner Beard said, Alabama was the 31st state to become free of hog cholera.

He also gave credit to the individuals and organizations who have worked so long and hard on the project. "It was strictly a team effort," he declared.

During the final phase of the eradication program a farm was completely destroyed.

We have kept a close watch on the movement of any feeder pigs and others into or out of Alabama and will continue to do so," Dr. Milligan declared. We have no action promptly on any reports of sick hogs and we will continue this practice.

Dr. John Milligan, State Veterinarian, said Alabama declared war against the deadly swine disease virus to immunize against the virus and to outlaw the sale of all garbage hogs which were sold.

Beard first praised the producers in the \$50 million swine industry for the cooperation given in

eradicating hog cholera.

Some people are just like angels, always hoping on something.

Elba was diagnosed, Dr. Milligan explained. The premises were then disinfected before being sealed again. The animals destroyed were paid a fair market price from indemnity money provided by the state and federal government.

"We were the first to take the nation to take this action," Dr. Milligan declared.

Since that time Alabama has outlawed the use of any virus to immunize against the disease.

The killing of all garbage hogs which were sold.

outlawed since this is one way cholera is spread.

Population of once cholera-free areas was diagnosed, Dr. Milligan explained. The premises were then disinfected before being sealed again. The animals destroyed were paid a fair market price from indemnity money provided by the state and federal government.

"We were the first to take the nation to take this action," Dr. Milligan declared.

**BRAINSTORMS**

With Farris Cox

Probably this year Christmas presents arrived in Elba received by the letter Dr. M. R. Kingford received from his wife who is a prisoner of war in North Vietnam. Ben was an Air Force pilot shot down and captured on November 11, 1966.

Mrs. Cox's handwriting was firm. He also ask how Alabama's football team was doing this year. His mother answered the letter immediately and was able to tell him, (at that time), "Alabama won all games". She could write only six lines, but she made those six count.

The federal courts have made a genuine mess out of the districts of the Alabama State Legislators. It seems to me it will be almost impossible to hold elections under this plan. We will have cases where eligible voters will vote in the next election, while others will vote in the previous election in legislative seats. How better can be arranged to work this out? I am far over my head, but apparently all voting beats will have to be re-aligned to carry out the federal mandate.

There has been much talk of just who will fill the unexpected term of the late George Andrews in Washington. At best it will be a short term of six months. Very few people could have the time or the will to do any good in that short time. Therefore, as a tribute to both the late George Andrews and to his widow, Mrs. Elizabeth Andrews of Union Springs (native of Geneva County) I would cast my vote for her. If and only if she expresses a desire to fill out the short term.

**Economic Stabilization****Questions and Answers**

Internal Revenue Service

Q. Are longevity increases counted as part of the 5.5 percent standard on wages and salaries set by the Pay Board?
A. No. Longevity increases are not counted as part of the 5.5 percent standard according to the terms of plans, agreements, or established practices as exists at present. Increases with improvements on or after August 15, 1971, without regard to the 5.5 percent general wage standard.
Q. Under what conditions are sales of real estate exempt from coverage under the economic stabilization program?
A. Sales of real estate exempt from coverage under the economic stabilization program?

Q. Are profits controlled

A. Sales of the following categories of real estate are exempt from the economic stabilization program:
(1) improved real estate; (2) real estate with improvements completed prior to August 15, 1971; and (3) real estate entries from the beginning of the price and wage freeze period. You can determine the average of these three fiscal years that ended prior to August 15, 1971 if the sales price is determined after the completion of construction. Wage rates known to the builder and are not altered by actions of the Pay Board after the sales price is established.
Q. Are profits controlled

SS AU BUSINESS TIPS 55

IS YOUR BUSINESS: THIN AND BEAUTIFUL?

AUBURN UNIVERSITY SCHOOL OF BUSINESS

Is your business fat and ugly? Is it fat with all the money you have borrowed? Is it ugly with debts which you repay those debts? When a business is fat and ugly, the banks refuse to lend it money. This is one of the lender's first limitations that is usually met by the bank. The bank uses these financial statements to determine whether or not you have the ability to manage your business. Do you have the ability to manage your business? How are you going to make the payment for purchase of seasonal products or fixed assets? Have you forecasted profits or made a cash flow statement? From these forecasts the banker can determine if a loan will actually help you meet your needs. You may be able to make the payment comfortably. The repayment of the loan creates another limitation on the terms of the loan agreement which must be followed. These terms include the amount of payment per month and the amount of interest you will have to pay. Make these a must in the bank.

QUESTION: You are chairman of the House Select Committee on Small Business, Housing and Urban Affairs Committee. You are also senior Democrat on the Joint Economic Committee and the Small Business Committee. All of these committees are involved with the economy. So it appears that you are eminently qualified to discuss the economic outlook for the country. What do you think?

SPARKMAN: Anyone attempting to forecast the course of our economy during 1972 must start with the recognition of the uncertainties. They are even more pronounced this year than usually the case. Much depends on the success of the Phase II Program. At the moment, it still remains

to be seen whether or not we will be able to bring inflation down below 4 per cent. If this can be done, then I believe with it will regenerate the economy, and particularly to increase consumption investment, both of which are crucial to economic recovery.

QUESTION: In some areas we have seen higher than usual inflation. Do you see this as bolstering the economy in 1972?

SPARKMAN: Consumers have been saving at a higher rate than usual largely because they are uncertain as to the future. If they save more, it will increase demand in 1972, which will increase demand and therefore result in higher growth. This also applies to investors. The addition

of a 7 per cent investment tax credit provides added incentive for investment in new plant and equipment overall, is being utilized at only 74 per cent of capacity. Once this situation is corrected, the tax reductions put into effect by the Congress toward the close of the year should help toward this end.

SPARKMAN: As of 1971 drawn to a close, we have 5 million

people unemployed who are available and able to work and new plant and equipment overall, is being utilized at only 74 per cent of capacity. Once this situation is corrected, the tax reductions put into effect by the Congress toward the close of the year should help toward this end.

QUESTION: The recent tax cut will be a serious problem during 1972. Is the outlook any better for 1972?

SPARKMAN: As of 1971 drawn to a close, we have 5 million

ASCS Announces Funeral Services Excellent Peanut Crop

Official figures released from the County ASCS office today show peanut farmers produced 50,907,331 pounds of peanuts of all types. This production was made on a harvested acreage of 26,119.6 acres. The average yield per pound of all types was 2,027 pounds per acre.

A record harvest of the record 21,337.0 acres of runner type peanuts with a total of 924 farms producing 43,681,903 pounds resulting in a yield of 44 pounds per acre.

Official figures released from the County ASCS office today show peanut farmers produced 50,907,331 pounds of peanuts of all types. This production was made on a harvested acreage of 26,119.6 acres. The average yield per pound of all types was 2,027 pounds per acre.

This yield is the highest ever recorded in the ASCS office in Coffee County.

The increased yield is attributed to better

cultural practices, and improved harvesting methods.

Coffee County farmers are hopefully looking forward to even higher production in 1972.

Church Group

At Westside

Holds Meeting

The Gleaners of Westside Baptist W.M.U. had their December meeting in the home of Mrs. Opal Cook on January 5, 1972, at 7:00 p.m.

Mrs. Lorene Baker gave the devotional and prayer.

A delicious meal was served to the following members: Mrs. Thelma Grimes, Mrs. Thelma Parham, Mrs. Agnes Wilson, Mrs. Doris Mallory, Mrs. Lessie Harrison, Mrs. Margaret Morrow, Mrs. Irene Bryan, Mrs. Margie Greer, Mrs. Linda Rushing, Mrs. Ruby Newell Mickler, and Mrs. Laverne Kelley.

A movie from a previous Christmas meeting of the group was shown and enjoyed. Gifts were exchanged, and a Christmas food project was prepared for a family. There was no business session and the meeting was adjourned.

LEGAL NOTICES

NOTICE OF MORTGAGE FORECLOSURE SALE

Default having been made in the payment of principal or interest due, as secured by that certain mortgage executed by JOSEPH BRUNISON and wife MARTHA ANN BRUNISON, REAL ESTATE FINANCING, INC., on December 22, 1970, and recorded in the Probate Records of Coffee County, State of Alabama, on January 1, 1971, at page 393, notice is hereby given that said mortgagee of said mortgage, being deceased, is entitled to the legal rights of sale, or the right to sell or public outcry to the highest bidder for cash the following described real estate conveyed in said mortgage, to wit:

A lot or parcel of land in the Town of Elba, County of Coffee, State of Alabama, containing 0.2662 acres with a total of 20 farms producing 455,635 pounds resulting in a yield of 2,274.44 pounds per acre, Virginia type 3.45,5.5 acres with a total of 181 farms producing 6,769,788 pounds, resulting in a yield of 38.2 pounds per acre.

Survivors include two sisters: Mrs. blonde Phillips, Geneva; Mrs. Morris, Geneva; seven daughters: Mrs. Madelyn Smith, Chicago, Ill.; Mrs. Jean Addison, Chicago, Ill.; Mrs. Eunice Blackmon; Mrs. Elizabeth Sanders, all of Elba; Mrs. Encyris Dobkins, deceased; three sons: William B. Ward, Elba; John R. Ward, Elba; James E. Ward, Montgomery.

Funeral Services

Help For Mr.

Williamson

Mr. John Williamson, 49, of Gadsden, formerly of Elba, died of heart attack Dec. 26, 1971.

Funeral services were held in Gadsden, Dec. 28 at 2:00 p.m.

Survivors include his wife, Johnnie Mae Price Williamson, 2 daughters, Patricia Ann Storie and Elizabeth Bryant; 1 grand daughter and 2 grand sons.

CARD OF THANKS

We deeply appreciate all of the kindness shown by our friends and neighbors during our period of grief over the loss of our beloved wife, Mrs. Eva Sharpless. Also thanks for the food and flowers.

Lucius Sharpless & Children.

REMEMBER WHEN

30 Years Ago

January 8, 1942

News reached Mrs. E. D. Mr. and Mrs. Henry J. Raine, and family of Elba Shire, who have been living in New York City for the past year, that their son had returned to Elba. Mrs. Grady Rhodes, and last week to make their home, in Hawaii.

The young man is the son of the late Mr. and Mrs. W. R. Crook family, who was badly damaged by fire Monday night, at twelve o'clock.

The Business Women's Circle of the Baptist Women's Union met in the home of Mrs. Mary Alice Mayes on Monday evening, Jan. 5, to plan a new year's program.

The Coffee County Association and Sargent Charles of the University William Harrison, of Elba, Friday evening in the Brunson Hotel for its annual "get-together" in guest and election of officers for the new year. Officers elected at this meeting were: Alumni Chairman, Mrs. S. Fleetwood Carnley; Sebring, Fla., was a visiting student, Lehman Bryan and their mother.

Mrs. Emma Bryan, residing at Sebring, in the vicinity of Lehigh, spent the past week end in Elba with his station at that point.

Captain Dozier S. Bryan was recently transferred from Camp Blanding to Camp Blanding, Fla., was a visiting student, Lehman Bryan and their mother.

Mrs. Emma Bryan, residing at Sebring, in the vicinity of Lehigh, spent the past week end in Elba with his station at that point.
